WORK EXPERIENCE

re:soft **Oct. 2025 – Present**

Full-Stack Developer

- Build the customer-facing frontend of a pet-care e-commerce platform, covering the product catalog, checkout and user pet profiles.
- Rebuilt pages and components for a customer loyalty platform during its migration from Next.js to React + Vite.
- Work with frontend, backend and product teammates in Agile sprints, through feature branches and code review.

Freelance **Sep. 2024 – Sep. 2025**

Full-Stack Developer & Designer

- Designed, built and deployed websites and web apps for independent clients, from first layout to launch.
- Completed a digital marketing internship at Brandwise, an AI-powered martech company, researching audiences and producing content and campaign reports for social media and email campaigns.

Oxeni **Oct. 2022 – Sep. 2024**

Full-Stack Developer & UI/UX Designer

- Designed interfaces in Figma for 6+ websites and apps for startups and small businesses, owning each project from requirements and design through development and deployment.
- Ran design reviews and iterative feedback rounds directly with clients, turning their input into shipped features.
- Built a reusable component library and UI kit shared across client projects, keeping the visual language consistent and cutting repetitive setup on each new build.
- Implemented custom visual effects, such as glassmorphism, to give client products a distinctive, modern look.
- Delivered websites for a business marketplace, an e-learning platform and a portfolio, plus a mobile app for a wearable personal-safety device taken to a working prototype.

artytechs **Dec. 2020 – Oct. 2022**

Junior Architect & 3D Visualization Artist

- Produced 3D renderings (Blender, Lumion, Twinmotion) and Archicad drawings for 5+ residential and commercial projects at an award-winning firm; most were built and some won awards.
- Developed the eye for layout, proportion and how people move through a space that now shapes my interface work.
